EDUCATION

UNIVERSITY OF MICHIGAN – Ann Arbor, Michigan *August 2025 - Present*
Computer Science BS, Data Science Minor, Medical Anthropology Minor | GPA: 3.71/4.0
Relevant Coursework: Discrete Mathematics, Programming and Introduction to Data Structures, Applied Linear Algebra

RIDGEWOOD HIGH SCHOOL – Ridgewood, New Jersey *Sep 2021 - June 2025*
GPA: 3.91/4.0 | ACT: 35/36 | AP Scholar | Varsity Swim (4 years)

WORK EXPERIENCE

BAREBURGER KITCHEN, *Food Server (Ridgewood, NJ)* *Apr 2026 - Aug 2026*
- Served food and drinks to guests in a fast-paced restaurant while providing friendly/efficient customer service.
- Took orders accurately, answered menu questions, and worked with the kitchen staff to ensure orders were delivered correctly and on time.

AUM DANCE CREATIONS, *Volunteer Dance Instructor (Paramus, NJ)* *Sep 2023 – June 2025*
- Taught beginner-level Kathak to children, developing lesson plans and choreographing routines for performances.
- Trained students for events under the Federation of India (FIA), enhancing skills and confidence.

LUCKY BRAND, *Cashier (Paramus, NJ)* *June 2024 – Sep 2024*
- Processed customer transactions efficiently, handling cash, credit, and returns while maintaining accuracy and minimizing wait times.
- Delivered strong customer service by assisting shoppers with purchases, answering questions, and maintaining a clean, organized sales floor.

FOREST HILL FIELD CLUB, *Poolside Server (Bloomfield, NJ)* *May 2022 – Aug 2022*
- Provided attentive poolside service, managing multiple tables, processing orders and payments, and addressing guest needs in a fast-paced environment.

RELEVANT EXPERIENCE

INDEPENDENT CS RESEARCH PROJECT, *Student Researcher / Data Analyst* *Sep 2024 – Feb 2025*
- Developed a neural network to predict mental health diagnoses, achieving a mean Hamming loss of 0.018, Jaccard similarity of 0.967, and Exact Match Ratio of 0.913.
- Analyzed Kaggle's Mental Illness Dataset using Python and phi_k correlation coefficients, filtering to single-diagnosis cases to improve clarity and identify key symptom-diagnosis relationships.
- Identified and visualized the top 10 symptoms associated with each disorder, providing insights to support more reliable diagnosis.
- Published findings in the Curieux Academic Journal, February 2025, Part 3

APPLIED ENGINEERING CLUB, *Club President / Project Coordinator (Ridgewood, NJ)* *Sep 2023 – June 2025*
- Led group projects and club activities, fostering collaboration among 20+ members while mentoring junior students in STEM research and project execution.
- Designed and tested a biodegradable alternative to mixed-material packaging, optimizing durability while maintaining compostability.
- Collaborated with 3 peers to develop a prototype that reduced waste by 30% and presented findings at local and regional STEM events.

ADDITIONAL

Technical: C++, Java, Python, NumPy, Pandas, VS Code, GitHub
Languages: English; Conversational proficiency in Spanish
Certifications & Training: Georgia Institute of Technology; Certificate program for computer science
Interests: Travel, Piano (15 years), Pilates/Yoga, Dance
